

October 11, 2013

To all,

When this began, I don't think any of us anticipated that the shutdown would last this long. As this has progressed, we want to provide additional guidance that has been developed by others related to the shutdown and its impact on employees. We also wanted to provide you with a letter for creditors, in case they have questions about the impact of the furlough and shutdown. Please continue to check the website for any updates, and we continue to hope for a quick resolution to this situation.

Thanks,
Tammy L. Whitcomb
Deputy Inspector General
